ABOUT PRIORITY LIGHTING

It is Priority Lighting's desire to put our customers first in providing products and lighting solutions that work for any budget as well as overall efficiency needs. It is our belief that conducting business in a professional and ethical manner ultimately benefits our customers.

Our friendly and knowledgeable staff is proficient in providing highly personalized lighting solutions, individually tailored to the particular requirements of our valued customers.

Moreover, it is Priority Lighting's goal to build name brand recognition that is synonymous with quality and trust.

We intend to fulfill this mission by supplying superior specification grade lighting products while ensuring the highest level of customer satisfaction

NATIONAL ACCOUNTS

Our certified lighting account managers are knowledgeable, friendly, and understand that every client has different needs. We are here to help you every step of the way. Priority Lighting is not a call center where you talk to someone different every time; each national account we service has their own dedicated rep who is always available. Responding to your needs is our priority. We won't leave you in the dark.

- DEEP WHOLESALE DISCOUNTS
- SIMPLIFIED CUSTOM ORDERING
- NATIONAL ROLL-OUTS
- EFFICIENT BILLING
- NATIONWIDE REAL-TIME ORDER TRACKING
- DEDICATED SUPPORT TEAM

TURN-KEY RETROFITS

Our energy analysts are here to assist you when upgrading your lighting. With real life advice, samples, ROI reports, and potential rebates, our lighting upgrades will outperform and enhance the overall efficiency of any property. Even while you are reducing the carbon footprint, you get to make your bottom line shine.

NEW CONSTRUCTION & REMODELS

Whether you need a quote on a specified lighting package, are looking to value-engineer a set of plans, or have no plans at all, Priority Lighting has the expertise to get you what you need. With your set of plans, we will provide counts, make notes, and ensure all lighting is to your specification. No plans? No problem. We will create a lighting and/or photo metric layout for your preliminary needs. Trying to match a fixture from a magazine? Send it to us! We have access to over 100 manufacturers. Got a napkin sketch? Send it to us, we can custom make you almost any fixture you can imagine - we bring your ideas to light!

- STAGING MATERIALS
- FIXTURE SCHEDULES

BULB REPLACEMENT PROGRAMS

Many of our clients prefer a "set it and forget it" approach to ordering supplies. We can automatically, and at a discount, re-order replacement lights based on your bulbs' expected life hours and hours of operation. You will always have inventory on-hand if a bulb or ballast should burn out. Our quick-ship orders are typically in transit within 24 hours of submitting an order to us, assuring our clients outshine the competition.

ENERGY EFFICIENCY & CONSULTING

Experienced in all areas of lighting, we specialize in LED technologies. Recognized by the US Department of Energy, Lighting Facts, as well as being an Energy Star Partner, we only use the best products available in all ranges of price points. If you are tired of lamps burning out too quickly or consuming high amounts of energy, both of which cost you money, call one of our knowledgeable reps for a free consultation.
